

8th August 2018**Quotation Notice**

1. Quotations are invited from eligible suppliers/vendors for following items with given description. The sealed envelope containing quotations shall reach to the correspondence address within 10 days (till 24/09/2018) from the display of the notice at the institute webpage.

Description of items

S.No	Description of item	Qty
1	Active Type Honeycomb, Broadband damping, size (maximum) 1.8 mX1.5 m or less , thickness range 200-450 mm, with four legs, compressor for active vibration isolation, M6 holes on 25mm grid, Surface flatness better than 0.1mm over 300X300mm ² area, Magnetized post base	1
2	He- Ne laser (633nm) with power supply & suitable rod mount and mounting holes for precision adjustment: Polarized (polarization components ratio <1/500), Power around 15mw or More, Beam diameter (1/e ²) range: 0.6 mm- 1mm	1
3	Spatial filter assembly with mount: XYZ (three stage) spatial filter assembly, Achromatic microscopic objective 20X, Numerical Aperture=0.4, Pinhole size 20 Micron	1
4	Spatial filter assembly: XYZ (three stage) spatial filter assembly to accommodates microscope objectives and pinholes	1

5	Achromatic microscopic objective 20X, Numerical Aperture=0.4, Pinhole size 20 Micron, Effective focal length 9mm, working distance:1.7mm,	1
6	Achromatic microscopic objective 60X, Numerical Aperture=0.85,	1
7	Pin holes: 15 microns , 5 microns and 20 microns	1 for each size

Note: submitted quotations based on email enquiry, need not to be submitted again.

Correspondence Address: Dr. Rakesh Kumar Singh

Associate Professor, Department of Physics

Indian Institute of Technology (BHU), Varanasi, 221005, Uttar- Pradesh, India
